Yellowstone and Grand Teton National Parks

PROVIDE SETTINGS FOR AN IDEAL VACATION

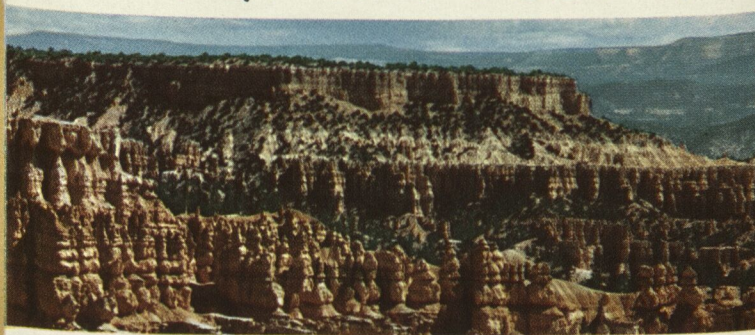

IF THERE IS ONE PLACE in all the world which, more than any other, captures the imagination it is Yellowstone. First, largest and most famous of our national parks, it provides the perfect setting for a perfect vacation.

What does Yellowstone offer you? The geysers, more than in all the rest of the world; colorful Grand Canyon of the Yellowstone River with its Great Falls, twice the height of Niagara; beautiful Yellowstone Lake; multi-colored "paint pots"; the tinted terraces at Mammoth Hot Springs; a profusion of wild flowers; the world's largest wild animal sanctuary.

To the south of Yellowstone are Grand Teton National Park and the fabled Jackson Hole country. Here the Tetons, rugged Alp-like peaks, are silhouetted against a blue sky, their snowy crests visible from afar — a sight you'll long remember.

Each of the three vacation itineraries outlined below includes both Yellowstone and the Tetons as first objectives. Each is combined with different added features giving you a variety from which to choose. Each is an ideal vacation.

*All rates shown are those in effect from Chicago, Illinois on February 1, 1957 and are subject to change. Pullman quotations are minimum rates based on two persons sharing a lower berth. Rates for superior types of accommodations are quoted in our complete Western Summer Tours book or will be furnished on request.
